

During the month of March VYC's Job Bank service was able to successfully recruit 25 single mothers and out of school youth for our skills training program. The participants have completed their orientation and first Enhancing Employability Skills session and will be embarking on computer training studies and a sewing class starting April 12, 2010. We are continuing our recruitment and will be starting our Hydroponics aspect of the program at the end of April which promises to be very interactive and rewarding. Out of school youth in the Lodge, Tucville, Sophia, South Ruimveldt, Albuystown and surrounding areas are encouraged to sign up by visiting our office or contacting us via telephone today! Together, we can help you to achieve a brighter, more successful future.
